## WHO IS TNI?

TNI is an IT Professional Services provider servicing North America and offering end-to-end Project Roll-Out Solutions by combining our Voice-Data-Wireless offering & Professional Services. We have an outstanding depth of technical expertise and profound knowledge of the latest industry trends complemented by the years of Telecom/IT industry experience that makes TNI a proven delivery model.

## WHY TNI?

TNI focuses on precise qualitative, timely delivered and Cost-Effective solutions. Our rich experience of working with National chains in Retail-Hospitality-C-Store, Financial & HealthCare industry project management gives us the capability and stringent quality standards which ensure we develop solutions that give your business that competitive edge over others. Our state of the art web based portal makes sure we deliver Real-Time maximum Project Analytics to our Clients. Furthermore, we are known to build system development catered to your process.

### Scalability:

TNI offers expertise of Multi-Site, Multi-Vendor & Multi-Technology rollouts to elegant business solutions. We are able to cover the gaps and spread to scale by utilizing our network of end to end nationwide technicians in all markets/regions. We're a well-equipped company providing on demand skilled technicians who specialize in large scale retail, other enterprise technology roll-outs, refreshes & new store/site installations, and managed service solutions with the combination that ranges from an array of multiple technologies; LAN/WAN – data, voice, wireless, data center network management, digital signage/video walls, point of sale, AV, cabling and security equipment.

### Assured Quality:

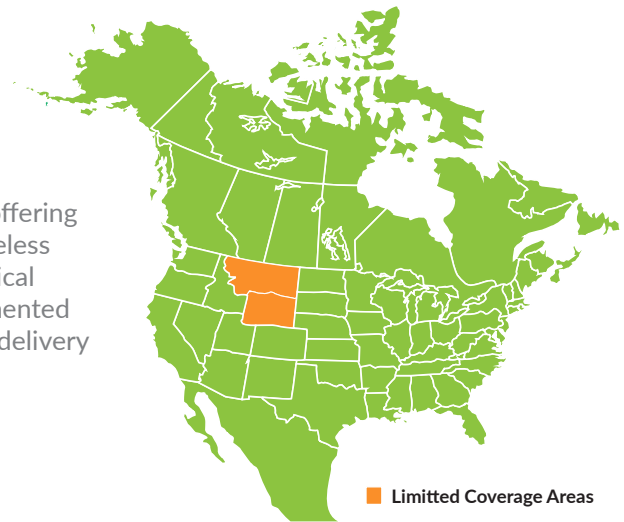

TNI does NOT rely on Freelance Portal Workforce. Our techs have real-world expertise which they absorb every day in the field working a variety of projects; this advantage has allowed us to complete projects successfully and on-time in all instances which we are proud of.

### Flexibility:

We listen, we discuss, we advise. Sounds obvious but we listen to your ideas, then discuss and execute on the plan and objectives for your business. We then select the best fitted solution to meet your requirements.
